Operating lease rentals are charged to the profit and loss account on a straight line basis over the lease term.

## Taxation

The charge for taxation is based on profit for the year. Deferred taxation is calculated on the differences between the company's taxable profits and the results as stated in the financial statements that arise from the inclusion of gains and losses in tax assessments in periods different from those in which they are recognised in the financial statements. The full deferred tax effect is recognised on differences between amounts funded and amounts charged to the profit and loss in relation to pensions and other post retirement benefits. Discounting is used in calculating deferred tax.

## Pensions

Pension benefits are met by payments to a defined contribution pension fund. Contributions are charged to the profit and loss in the year in which they fall due.
