Significant Accounting Judgements

Management is required to make judgements in the process of applying the company's accounting policies. The key judgement made in these financial statements is that the level of debtors disclosed in note 7 to the financial statements is collectible.

Going Concern

After reviewing the Company's forecasts and projections, the directors have reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. The company therefore continues to apply the going concern basis in preparing its financial statements.

Tangible assets and depreciation

Tangible assets are stated at cost or at valuation, less accumulated depreciation. The charge to depreciation is calculated to write off the original cost or valuation of tangible assets, less their estimated residual value, over their expected useful lives as follows:

FF & Equipment	- 20% Straight line
----------------	---------------------

The carrying values of tangible fixed assets are reviewed annually for impairment in periods if events or changes in circumstances indicate the carrying value may not be recoverable.

Trade and other debtors

Trade and other debtors are initially recognised at fair value and thereafter stated at amortised cost using the effective interest method less impairment losses for bad and doubtful debts except where the effect of discounting would be immaterial. In such cases the receivables are stated at cost less impairment losses for bad and doubtful debts.

Trade and other creditors

Trade and other creditors are initially recognised at fair value and thereafter stated at amortised cost using the effective interest rate method, unless the effect of discounting would be immaterial, in which case they are stated at cost.
