Historical cost is generally based on the fair value of the consideration given in exchange for assets. Turnover

Turnover represents the fair value of amounts, received and receivable, in respect of the development and production of animation content during the year, exclusive of value added tax.

Trade and other debtors

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more tax in the future, or a right to pay less tax in the future. 3. Going concern

The company made a loss during the year of €135,764 and has net liabilities of €134,806 at year end (2024: €958).
