The financial statements have been prepared on the going concern basis and in accordance with the historical cost convention except for certain properties and financial instruments that are measured at revalued amounts or fair values, as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for assets. Going Concern

The financial statements have been prepared on a going concern basis which assumes that the company will continue in operational existence for at least one year from the date of these financial statements.

The directors have considered the performance of the business subsequent to the year end. They have prepared and reviewed future budgets and projected cashflows and based on these and the ongoing measures taken to reduce property related and other costs, the directors believe that the company is well positioned to return to full trading capacity once the current period of uncertainty and restriction passes.

However, notwithstanding the aforementioned, the directors believe that given the grave uncertainty of the current trading environment there still exists a material uncertainty which may cast significant doubt on the company's ability to continue to trade into the future.

While the directors believe that it is appropriate for the financial statements to be prepared on the going concern basis, and the financial statements do not include any adjustments that would result from a situation where the company failed to achieve the projected financial results following the recommencement of full trading activities.

Borrowing costs

Borrowing costs relating to the acquisition of assets are capitalised at the appropriate rate by adding them to the cost of assets being acquired. Investment income earned on the temporary investment of specific borrowings pending their expenditure on the assets is deducted from the borrowing costs eligible for capitalisation. All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

Investments

Investments held as fixed assets are stated at cost less provision for any permanent diminution in value. Income from other investments together with any related withholding tax is recognised in the Profit and Loss Account in the year in which it is receivable.
