Mac Mac Limited

NOTES TO THE ABRIDGED FINANCIAL STATEMENTS

for the financial year ended 30 April 2025

1. General Information

Mac Mac Limited is a company limited by shares incorporated and registered in Ireland. The registered number of the company is 099239. The registered office of the company is The Village Inn, Patrick Street, Kilkenny which is also the principal place of business of the company. The financial statements have been presented in Euro (€) which is also the functional currency of the company.

2. Summary of Significant Accounting Policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's financial statements.

Basis of preparation

The financial statements have been prepared on the going concern basis and in accordance with the historical cost convention. The financial reporting framework that has been applied in their preparation is the Companies Act 2014 and FRS 105 "The Financial Reporting Standard applicable to the Micro-Entities Regime" issued by the Financial Reporting Council.

The company qualifies as a micro company as defined by section 280D of the Companies Act 2014 in respect of the financial year, and has applied the rules of the 'Micro Companies Regime' in accordance with section 280E of the Companies Act 2014 and FRS 105.

Turnover

Turnover comprises the invoice value of goods supplied by the company, exclusive of trade discounts and value added tax.

Tangible assets and depreciation

All tangible fixed assets are initially recorded at historic cost. This includes legal fees, stamp duty and other non-refundable purchase taxes, and also any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management, which can include the costs of site preparation, initial delivery and handling, installation and assembly, and testing of functionality.

Depreciation is provided on all tangible fixed assets, other than freehold land, at rates calculated to write off the cost or valuation, less estimated residual value, of each asset systematically over its expected useful life, on a straight-line basis, as follows:

Land and buildings freehold	-	50 Years
Fixtures, fittings and equipment	-	10 Years

The residual value and useful lives of tangible assets are considered annually for indicators that these may have changed. Where such indicators are present, a review will be carried out of the residual value, depreciation method and useful lives, and these will be amended if necessary. Changes in depreciation rates arising from this review are accounted for prospectively over the remaining useful lives of the assets.

Stocks

Stocks are valued at the lower of cost and net realisable value. Cost comprises expenditure incurred in the normal course of business in bringing stocks to their present location and condition. Full provision is made for obsolete and slow moving items. Net realisable value comprises actual or estimated selling price (net of trade discounts) less all further costs to completion or to be incurred in marketing and selling.

Taxation

Current tax represents the amount expected to be paid or recovered in respect of taxable profits for the financial year and is calculated using the tax rates and laws that have been enacted or substantially enacted at the Balance Sheet date.

Government grants

Capital grants received and receivable are treated as deferred income and amortised to the Profit and Loss Account annually over the useful economic life of the asset to which it relates. Revenue grants are credited to the Profit and Loss Account when received.
