ODCF Advisory Limited is a private company limited by shares incorporated in the Republic of Ireland. The registered office is Floor 1, 52 South Mall, Cork. .

I, as director of ODCF Advisory Limited, state that:

(a) The company is availing itself of the exemption from audit provided for by Chapter 15 of Part 6 of the Companies Act 2014.

(b) The company is availing itself of the exemption on the grounds that section 358 is complied with.

(c) No notice under subsection (1) of section 334 has, in accordance with subsection (2) of that section, been served on the company.

(d) The director acknowledges the obligations of the company, under the Companies Act 2014:

(i) to keep adequate accounting records and prepare financial statements which give a true and fair view of the assets, liabilities and financial position of the company at the end of its financial period and of its profit or loss for such a financial period; and

(ii) to otherwise comply with the provisions of this Act relating to financial statements so far as they are applicable to the company.

(e) The company has relied on the specified exemption as a micro company contained in section 352 Companies Act 2014; the company has done so on the grounds that it is entitled to the benefit of that exemption as a small company and I confirm that the abridged financial statements have been properly prepared in accordance with section 353 Companies Act 2014.

These financial statements have been prepared in accordance with the micro-entity provisions and in accordance with FRS 105 'The Financial Reporting Standard applicable to the Micro-entities Regime'.

The financial statements were approved and signed by the director and authorised for issue on 20 March 2026

Rory O'Doherty
Director

ODCF ADVISORY LIMITED

NOTES TO THE FINANCIAL STATEMENTS

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2025

1 Accounting policies

Company information

ODCF Advisory Limited is a limited company that provides financial advisory and consultancy services.

ODCF Advisory Limited is a company limited by shares and is incorporated and domiciled in Ireland. The registered office is Floor 1, 52 South Mall, Cork and it's company registration number is 761551. The company is tax resident in Ireland.

This set of financial statements has been prepared by ODCF Advisory Limited in accordance with FRS 105, the Financial Reporting Standard applicable in the UK and Republic of Ireland, issued by the Financial Reporting Council.

The significant accounting policies adopted by the company and applied consistently in the preparation of these financial statements are set out below:

1.1 Basis of preparation

These financial statements have been prepared on the going concern basis under the historical cost convention, and comply with the financial reporting standards of the Financial Reporting Council, including FRS 105 'the Financial Reporting Standard applicable to the Micro-Entities Regime' and the requirements of the Companies Act 2014.

The financial statements are prepared in euros, which is the functional currency of the company. Monetary amounts in these financial statements are rounded to the nearest €.

1.2 Going concern

At the time of approving the financial statements, the director has a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. Thus the director continues to adopt the going concern basis of accounting in preparing the financial statements.

1.3 Turnover

Turnover is recognised at the fair value of the consideration received or receivable for goods and services provided in the normal course of business, and is shown net of VAT and other sales related taxes. The fair value of consideration takes into account trade discounts, settlement discounts and volume rebates.

Revenue from contracts for the provision of professional services is recognised when the contract is completed.

1.4 Tangible fixed assets

Tangible fixed assets are initially measured at cost and subsequently measured at cost net of depreciation and any impairment losses.

Depreciation is recognised so as to write off the cost or valuation of assets less their residual values over their useful lives on the following bases:

Fixtures and fittings	12.5% Straight line basis
Computers	12.5% Straight line basis
Motor vehicles	20% Straight line basis

The gain or loss arising on the disposal of an asset is determined as the difference between the sale proceeds and the carrying value of the asset, and is credited or charged to profit or loss.

ODCF ADVISORY LIMITED

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE FINANCIAL YEAR ENDED 30 JUNE 2025

1.5 Impairment of fixed assets

At each reporting period end date, the company reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the impairment loss is treated as a revaluation decrease.

Recognised impairment losses are reversed if, and only if, the reasons for the impairment loss have ceased to apply. Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

1.6 Stocks

Stocks are stated at the lower of cost and estimated selling price less costs to complete and sell. Cost comprises direct materials and, where applicable, direct labour costs and those overheads that have been incurred in bringing the stocks to their present location and condition.

Stocks held for distribution at no or nominal consideration are measured at the lower of cost and replacement cost, adjusted where applicable for any loss of service potential.

At each reporting date, an assessment is made for impairment. Any excess of the carrying amount of stocks over its estimated selling price less costs to complete and sell is recognised as an impairment loss in profit or loss. Reversals of impairment losses are also recognised in profit or loss.

1.7 Cash and cash equivalents

Cash and cash equivalents are basic financial assets and include cash in hand, deposits held at call with banks, other short-term liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities.

1.8 Financial instruments

Financial assets and liabilities are recognised only when the company becomes a party to the contractual provisions of the instrument. They are recognised initially at cost, which is measured at the transaction price including material transaction costs. Financial assets and liabilities are offset when the company currently has a legally enforceable right to set off the recognised amounts and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Other financial instruments are subsequently measured at cost adjusted for the allocation of interest, the amortisation of any transaction costs included in the cost of the instruments and any impairment loss.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2025

Impairment

Financial assets are assessed for indicators of impairment at each reporting end date and any impairment loss is recognised in profit or loss. If in a subsequent period the amount of an impairment loss decreases and the decrease can be related to an event occurring after the impairment was recognised, the impairment is reversed to the extent of this decrease, and is recognised in profit or loss.

Financial assets are considered to be impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the expected future cash flows have been materially affected. The impairment loss is calculated as the difference between the carrying amount of the asset and its fair value. For investments, fair value is calculated as the best estimate of the asset's selling price less costs. For other assets apart from derivatives, fair value is calculated as the present value of the estimated net cash flows.

Derecognition

Financial assets are derecognised only when the contractual rights to the cash flows from the asset expire or are settled, or when the company transfers the financial asset and substantially all the risks and rewards of ownership to another entity, or if some significant risks and rewards of ownership are retained but control of the asset has transferred to another party that is able to sell the asset in its entirety to an unrelated third party.

Financial liabilities are derecognised when the company's contractual obligations expire or are discharged or cancelled. Any gain or loss on derecognition is included in profit or loss.

1.9 Equity instruments

Equity instruments issued by the company are recorded at the proceeds received, net of transaction costs. Dividends payable on equity instruments are recognised as liabilities once they are no longer at the discretion of the company.

1.10 Taxation

The tax currently payable is based on taxable profit for the financial period. Taxable profit differs from net profit as reported in the profit and loss account because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the reporting end date.

1.11 Employee benefits

The costs of short-term employee benefits are recognised as a liability and an expense. Such benefits include paid annual leave and paid sick leave; profit-sharing and bonuses; and non-monetary benefits such as medical care, housing, cars and free or subsidised goods or services for current employees.

The cost of any unused holiday entitlement is recognised in the period in which the employee's services are received. Termination benefits are recognised immediately as an expense when the company is demonstrably committed to terminate the employment of an employee or to provide termination benefits.

1.12 Retirement benefits

Payments to defined contribution retirement benefit schemes are charged as an expense as they fall due. When contributions are not expected to be settled wholly within 12 months after the end of the reporting period in which the employees render the related service, the liability recognised is measured at the present value of the contributions payable.

The cost of providing benefits under defined benefit plans is determined separately for each plan, and is based on actuarial advice. Amounts paid in the period are recognised in profit and loss after adjusting for outstanding contributions payable, including the funding of any deficit.

When contributions are not expected to be settled wholly within 12 months after the end of the reporting period in which the employees render the related service, the liability recognised is measured at the present value of the contributions payable. The unwinding of the related discount is recognised as an interest expense in profit or loss in the period in which it arises.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

FOR THE FINANCIAL YEAR ENDED 30 JUNE 2025

1.13 Borrowings

Borrowings are recognised at the transaction prices (present value of cash payable to the creditors). Interest expenses are recognised in the profit and loss in the financial year in which there are charged.

Borrowings are classified as appropriate, given that the company has a right to defer settlement of some of the liabilities for at least 12 months after the reporting date.

2 Profit and loss reserves
