The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's financial statements.

Statement of compliance

The financial statements of the company for the financial year ended 30 June 2025 have been prepared in accordance with the provisions of FRS 102 Section 1A (Small Entities) and the Companies Act 2014.

Basis of preparation

The financial statements have been prepared on the going concern basis and in accordance with the historical cost convention except for certain properties and financial instruments that are measured at revalued amounts or fair values, as explained in the accounting policies below. Historical cost is generally based on the fair value of the consideration given in exchange for assets. The financial reporting framework that has been applied in their preparation is the Companies Act 2014 and FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" Section 1A, issued by the Financial Reporting Council.

Turnover

Turnover comprises the invoice value of goods supplied by the company, exclusive of trade discounts and value added tax.

Tangible assets and depreciation

Tangible assets are stated at cost or at valuation, less accumulated depreciation. The charge to depreciation is calculated to write off the original cost or valuation of tangible assets, less their estimated residual value, over their expected useful lives as follows:

Fixtures, fittings and equipment	-	12.5% Straight line
----------------------------------	---	---------------------

The carrying values of tangible fixed assets are reviewed annually for impairment in periods if events or changes in circumstances indicate the carrying value may not be recoverable.

Investment properties

Investment property is property held either to earn rental income, or for capital appreciation (including future re-development) or for both, but not for sale in the ordinary course of business.

Investment property is initially measured at cost, which includes the purchase cost and any directly attributable expenditure. Investment property is subsequently valued at its fair value at each reporting date, by professional external valuers. The difference between the fair value of an investment property at the reporting date and its carrying value prior to the valuation is recognised in the Profit and Loss Account as a fair value gain or loss. Any gain or loss on disposal of an investment property (calculated as the difference between the net proceeds from disposal and the carrying amount of the item) is recognised in the Profit and Loss Account.

Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and in hand, demand deposits with banks and other short-term highly liquid investments with original maturities of three months or less and bank overdrafts. In the Balance Sheet bank overdrafts are shown within Creditors.

Trade and other creditors

Trade and other creditors are initially recognised at fair value and thereafter stated at amortised cost using the effective interest rate method, unless the effect of discounting would be immaterial, in which case they are stated at cost.
