We, as directors of Seaservice (Cobh) Limited state that:

- (a) the company is availing itself of the exemption provided for by Chapter 15 of Part 6 of the Companies Act 2014;
- (b) the company is availing itself of the exemption on the grounds that the conditions specified in section 358 of the Companies Act 2014 are satisfied;
- (c) the shareholders of the company have not served a notice on the company under section 334(1) of the Companies Act 2014 in accordance with section 334(2);
- (d) we acknowledge the company's obligations under the Companies Act 2014, to keep adequate accounting records and prepare financial statements which give a true and fair view of the assets, liabilities and financial position of the company at the end of its financial year and of its profit or loss for such a financial year and to otherwise comply with the provisions of Companies Act 2014 relating to financial statements so far as they are applicable to the company; and
- (e) the company has relied on the specified exemption contained in section 352 of the Companies Act 2014; has done so on the grounds that the company is entitled to the benefit of that exemption as a micro company and the abridged financial statements have been properly prepared in accordance with section 353 of the Companies Act 2014.

The financial statements have been prepared in accordance with the micro companies regime.

These abridged financial statements were approved by the board of directors on 24 February 2026 and signed on behalf of the board by:

**John Dundon**  
Director

**Teresa Dundon**  
Director

### **Notes to the abridged financial statements Financial year ended 31 December 2025**

#### **1. Accounting policies and measurement bases**

##### **Financial instruments**

A financial asset or a financial liability is recognised only when the company becomes a party to the contractual provisions of the instrument.

Financial instruments are initially recognised at cost, which is the transaction price.

Investments in shares, subsidiaries or participating interests are subsequently measured at cost less impairment.

Derivatives are subsequently measured at the cost plus any transaction costs not immediately recognised in profit or loss less any impairment losses recognised to date. This is allocated to profit or loss over the term of the contract on a straight-line basis, unless another systematic basis of allocation is more appropriate.

Other financial instruments are subsequently measured at the cost plus any transaction costs not immediately recognised in profit or loss, plus accumulated interest income or expense recognised to date, less all repayments of principal or interest to date, less impairment.

Financial assets are reviewed for objective evidence of impairment at the end of each reporting date. If there is objective evidence of impairment, an impairment loss is recognised in profit or loss immediately.

Any reversals of impairment are recognised in profit or loss immediately.

## Seaservice (Cobh) Limited

### Notes to the abridged financial statements (continued) Financial year ended 31 December 2025

#### 2. Other accounting policies

The company is a private company limited by shares, registered in Ireland. The address of the registered office is Seaservice (Cobh) Limited, The Five Heads, Walterstown, Cobh, Co. Limerick.

The significant accounting policies adopted by the company and applied consistently are as follows:

##### **Basis of preparation**

The financial statements have been prepared on the going concern basis, under historical cost convention and comply with the financial reporting standards of the Financial Reporting Council including "The Financial Reporting Standard applicable to the Micro-Entities - FRS 105" of the Companies Act 2014.

##### **Functional Currency**

Items included in the financial statements of the company are measured using the currency of the primary economic environment in which the company operates ("the functional currency"). The financial statements are presented in euro, which is the company's functional and presentation currency and is denoted by the symbol "€"

##### **Trade and other debtors**

Trade and other debtors are recognised initially at transaction price (including transaction costs). For trade debtors where the payment is beyond normal credit terms it is held at the present value of all future payments using the imputed rate of interest or the cash price for the goods or services where material. Where loans are advanced it is carried at the transaction price (including transaction costs where material) regardless of whether a financing arrangement exists. Subsequently all trade and other debtors are measured at transaction price plus transaction costs not yet recognised, plus any unwinding of the discount on transactions initially recognised at present value/cash value, less repayments, plus advances and less any provision for impairment. Transaction costs including any amounts deferred on sales where receipt is deferred beyond normal credit terms are released to the profit and loss on a straight line basis over the length of the contract. A provision for impairment of trade debtors is established when there is objective evidence that the company will not be able to collect all amounts due according to the original terms of receivables. The amount of the provision is the difference between the asset's carrying amount and the estimated future cash flows. All movements in the level of the provision required are recognised in the profit and loss.

##### **Provisions**

## Seaservice (Cobh) Limited

### Notes to the abridged financial statements (continued) Financial year ended 31 December 2025

Provisions are recognised when the company has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount of the obligation can be estimated reliably.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as a finance cost.

#### Contingencies

Contingent liabilities, arising as a result of past events, are not recognised when (i) it is not probable that there will be an outflow of resources or that the amount cannot be reliably measured at the reporting date or (ii) when the existence will be confirmed by the occurrence or non-occurrence of uncertain future events not wholly within the company's control. Contingent liabilities are disclosed in the financial statements unless the probability of an outflow of resources is remote.

Contingent assets are not recognised. Contingent assets are disclosed in the financial statements when an inflow of economic benefits is probable.

#### Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new ordinary shares or options are shown in equity as a deduction, net of tax, from the proceeds.

### 3. Appropriations of profit and loss account

	2025	2024
	€	€
At the start of the financial year	(100)	(80)
Loss for the financial year	(20)	(20)
<b>At the end of the financial year</b>	<u>(120)</u>	<u>(100)</u>
