Notes to the Financial Statements for the year ended 31 December 2025

1. Accounting Policies

Bishops Island Property Management Company Limited is primarily engaged in the management of Residential and Commercial Units at the development at Bishops Island, Watergrasshill, Co. Cork from its base of operations in Office 4 Distillery Lane, Main Street, Midleton, Co. Cork. The object of the Company is the orderly management of the Units to the mutual benefit of the owners.

The Company is a Company Limited by Guarantee incorporated and domiciled in Ireland and its Company Registration Number is 366146. The Company is tax resident in Ireland.

The significant accounting policies adopted by the Company and applied consistently in the preparation of these Financial Statements are as follows:

1.1. Basis of Preparation

The Financial Statements are prepared on the Going Concern basis, under the Historical Cost Convention and comply with the Financial Reporting Standards of the Financial Reporting Council, as promulgated by the Association of Chartered Certified Accountants including FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" ("FRS 102") and the Companies Act 2014.

The Financial Statements are prepared in Euro which is the functional currency of the Company.

1.2. Income/Service Charges

All Turnover derives from activities in the Republic of Ireland and primarily relates to Service Charges invoiced.

There are 6 Residential Units and 3 Commercial Units in the Development from which the Company is entitled to receive Service Charges.

Included in Debtors below is an amount of €2,869 relating to Service Charges due from 1 Unit at 31 December 2025. This Units debt has been identified as potentially being problematic in terms of successful collection within the next twelve months. Legal measures and other procedures are being considered by the Directors to ensure the timely collection of these particular debts.

1.3. Research and development

Research expenditure is written off to the profit and loss account in the year in which it is incurred.

1.4. Taxation

In common with other Companies in this sector, the Company must compensate the tenants of the residential units for any excess charges over the expenditure incurred or recover any shortfall. As a result, the Company is unlikely to have a Profit. As a consequence of the above a Corporation Tax liability should not arise in the future.

1.5. Cash and Cash Equivalents

This includes current and deposit accounts.

1.6. Trade and Other Receivables

Short and Long Term Debtors are measured at transaction price. Impairment is not carried out.

1.7. Creditors and Accruals

Short Term Trade Creditors are measured at transaction price.

2. Going Concern

The Financial Statements have been prepared on a going concern basis. The Company's activities together with the factors likely to affect its future development, performance and position are set out in the Directors Report on Pages 1 to 2. The principal risks and uncertainties faced by the Company are also included in the Directors Report.

The Directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. Thus they continue to adopt the going concern basis of accounting in preparing the Annual Financial Statements.

3. Critical Accounting Judgements and Estimates

The preparation of these Financial Statements requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses.

Judgements and estimates are continually evaluated and are based on historical experiences and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Company makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. Management consider that there are no estimates and assumptions that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

4. The transfer of the Reversionary Interest and Residual Title to the common areas in Bishops Island Property Management Company Limited has been executed.
