Notes to the abridged financial statements Financial year ended 31 March 2025

1. General information

The company is a private company limited by shares, registered in Ireland. The address of the registered office is Rex Farm Limited, Shanrath, Newcastlewest, Co. Limerick.

2. Statement of compliance

These financial statements have been prepared in accordance with FRS 105, 'The Financial Reporting Standard applicable to the Micro-entities Regime'.

3. Accounting policies and measurement bases

Basis of preparation

The financial statements have been prepared on the historical cost basis.

The financial statements are prepared in Euro, which is the functional currency of the entity.

Turnover

Turnover represents the net sales to customers excluding Value Added Tax.

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have transferred to the buyer, usually on despatch of the goods, the amount of revenue can be measured reliably, it is probable that the associated economic benefits will flow to the entity, and the costs incurred or to be incurred in respect of the transactions can be measured reliably.

Taxation

The charge for taxation is based on the profit for the year. Deferred taxation is not calculated as it is not considered material.

Tax is recognised in the statement of comprehensive income, except to the extent that it relates to items recognised in other comprehensive income or directly in capital and reserves. In this case, tax is recognised in other comprehensive income or directly in capital and reserves, respectively.

Tax is recognised on taxable profit for the current and past periods. Tax is measured at the amounts of tax expected to pay or recover using the tax rates and laws that have been enacted or substantively enacted at the reporting date.

Tangible assets

Tangible fixed assets are stated at cost less accumulated depreciation and accumulated impairment loss. Cost includes all costs that are directly attributable to bringing the asset into working condition for its intended use.

Tangible assets are measured initially at cost, and are subsequently stated at cost less accumulated depreciation and impairment losses.

Depreciation

Depreciation is calculated so as to write off the cost or valuation of an asset, less its residual value, over the useful economic life of that asset as follows:

Rex Farm Limited

Notes to the abridged financial statements (continued) Financial year ended 31 March 2025

Impairment

Impairment reviews are carried out where there are events or changes in circumstances that indicate that the carrying amount of the fixed asset or goodwill may not be recoverable. Where there is an impairment loss it is recognised in the profit and loss account (There is no policy of revaluing fixed assets).

Financial instruments

Basic financial assets and liabilities are initially recognised at transaction price, unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of future receipts discounted at a market rate of interest. Such assets and liabilities are subsequently carried at amortised cost using the effective interest rate method.

At the end of each reporting period financial assets and liabilities measured at cost or amortised cost are assessed for objective evidence of impairment. If an asset or liability is impaired the impairment loss is the difference between the present value of the estimated cash flows discounted at the asset's/liability's original effective interest rate. The impairment loss is recognised in the profit and loss account.

If there is a decrease in an impairment loss arising from an event occurring after the impairment was recognised, the impairment is reversed. The reversal is such that the current carrying amount does not exceed what the carrying amount would have been had the impairment not previously been recognised. The impairment reversal is recognised in the profit and loss account.

Debt instruments that are payable or receivable within one year are measured at the undiscounted amount of the cash or other consideration expected to be paid or received.
