For the financial period ended 30 April 2025, the company incurred a loss of €10,562 and had net liabilities of €10,561 at the balance sheet date. These conditions indicate the existence of a material uncertainty which may cast significant doubt on the company's ability to continue as a going concern.

The director has considered the company's financial position and future cash flow requirements. The director has advanced funds to the company and has confirmed that they will continue to provide financial support to the company for the foreseeable future as required. On this basis, the director believes that the company will be able to meet its liabilities as they fall due and therefore considers it appropriate to prepare the financial statements on a going concern basis.
