Turnover is stated net of discounts, VAT and similar taxes and derives from the provision of services falling within the company's ordinary activities. Turnover on supply of services such is recognised by reference to the stage of completion of the service at the end of the financial year.

#### Tangible assets and depreciation

All tangible fixed assets are initially recorded at historic cost. Where factors indicate that the residual values or useful lives of tangible assets may have changed, a review will be carried out of the residual values, depreciation methods and useful lives, and these will be amended if necessary. Changes in depreciation rates arising from this review are accounted for prospectively over the remaining useful lives of the assets.
