NOTES TO THE FINANCIAL STATEMENTS

AS AT 31 JULY 2025

1 Accounting policies

LLessur Limited is a private company limited by shares incorporated in Republic of Ireland. The registered office is Rockbarn House, Upper Ballygarvan, Cork.

The significant accounting policies adopted by the company and applied consistently are as follows:

1.1 Accounting convention

These Financial Statements have been prepared in accordance with FRS 105 'The Financial Reporting Standard applicable to the Micro-Entities Regime' and the requirements of the Companies Act 2014 as amended by the Companies (Accounting) Act 2017.

The Financial Statements are prepared in euros, which is the functional currency of the company. Monetary amounts in these Financial Statements are rounded to the nearest €.

The Financial Statements have been prepared on the going concern basis, under the historical cost convention.

1.2 Going concern

At the time of approving the Financial Statements, the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. Thus the directors continue to adopt the going concern basis of accounting in preparing the Financial Statements.

1.3 Turnover

Turnover is recognised at the fair value of the consideration received or receivable for goods and services provided in the normal course of business, and is shown net of VAT and other sales related taxes. The fair value of consideration takes into account trade discounts, settlement discounts and volume rebates.

When cash inflows are deferred and represent a financing arrangement, the fair value of the consideration is the present value of the future receipts. The difference between the fair value of the consideration and the nominal amount received is recognised as interest income.

1.4 Tangible fixed assets

Tangible fixed assets are initially measured at cost and subsequently measured at cost net of depreciation and any impairment losses.

Depreciation is recognised so as to write off the cost or valuation of assets less their residual values over their useful lives on the following bases:

Plant and equipment	12.5%/20%/25% & 33% straight line
Computer equipment	25% straight line
Motor vehicle	12.5% straight line

The gain or loss arising on the disposal of an asset is determined as the difference between the sale proceeds and the carrying value of the asset, and is credited or charged to profit or loss.

1.5 Cash and cash equivalents

Cash and cash equivalents are basic financial assets and include cash in hand, deposits held at call with banks, other short-term liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

AS AT 31 JULY 2025

1.6 Financial instruments

Financial assets and liabilities are recognised only when the company becomes a party to the contractual provisions of the instrument. They are recognised initially at cost, which is measured at the transaction price including material transaction costs. Financial assets and liabilities are offset when the company currently has a legally enforceable right to set off the recognised amounts and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

1.7 Equity instruments

Ordinary shares are classified as equity.

1.8 Taxation

The tax currently payable is based on taxable profit for the financial year. Taxable profit differs from net profit as reported in the income and expenditure account because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the reporting end date.
