Notes to the abridged financial statements
Financial year ended 31 December 2025

1. General information

The company is a private company limited by guarantee, registered in Ireland. The address of the registered office is 10b Royal Court Business Centre, Liosbán Industrial Estate, Galway, Galway, H91X67N, Ireland.

2. Statement of compliance

These financial statements have been prepared in accordance with FRS 105, 'The Financial Reporting Standard applicable to the Micro-entities Regime'.

3. Accounting policies and measurement bases

Basis of preparation

The financial statements have been prepared on the historical cost basis.

The financial statements are prepared in Euro, which is the functional currency of the entity.

Going concern

The directors have prepared budgets for the upcoming 12 months which show that the company will continue as a going concern. The financial statements have been prepared on a going concern basis.

The Financial Statements are prepared on the going concern basis, under the historical cost convention and comply with the financial reporting standards of the Financial Reporting Council including 'The Financial Reporting Standard applicable to the Micro-Entities Regime - 'FRS 105' and the Companies Act 2014.

The directors consider it appropriate to prepare the accounts on a going concern basis. After making enquiries and observing the trade debtors, the directors and members are aware that the main risk facing the company is the uncertain economic climate within which it currently operates. This would have a direct impact on the ability of the company to recover service charges due. The directors, however are confident that all these amounts are recoverable in full and that debt collection in the future should not pose a serious risk to the operation of the company thus they have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future, for this reason, they continue to adopt the going concern basis in preparing the financial statements.

Judgements and key sources of estimation uncertainty

The preparation of these financial statements requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities income and expenses.

Turnover

Turnover represents the reimbursement due to the company by members of the costs incurred by the management company in the maintenance of the common areas for the accounting period. The lessees are liable to their share of the company's annual expenses and sinking fund contribution.

Taxation

The company has obtained exemption from the Revenue Commissioners in respect of Corporation tax, it being a company not carrying on a business for the purposes of making a profit. DIRT tax is payable on any interest income received in excess of €32.

Tax is recognised on taxable profit for the current and past periods. Tax is measured at the amounts of tax expected to pay or recover using the tax rates and laws that have been enacted or substantively enacted at the reporting date.

Current taxation assets and liabilities are not discounted. Deferred tax is not recognised.

Financial instruments

A financial asset or a financial liability is recognised only when the company becomes a party to the contractual provisions of the instrument.

Financial instruments are initially recognised at cost, which is the transaction price.

Investments in shares, subsidiaries or participating interests are subsequently measured at cost less impairment.

Derivatives are subsequently measured at the cost plus any transaction costs not immediately recognised in profit or loss less any impairment losses recognised to date. This is allocated to profit or loss over the term of the contract on a straight-line basis, unless another systematic basis of allocation is more appropriate.

Other financial instruments are subsequently measured at the cost plus any transaction costs not immediately recognised in profit or loss, plus accumulated interest income or expense recognised to date, less all repayments of principal or interest to date, less impairment.

Financial assets are reviewed for objective evidence of impairment at the end of each reporting date. If there is objective evidence of impairment, an impairment loss is recognised in profit or loss immediately.

Any reversals of impairment are recognised in profit or loss immediately.

Cash at bank and on hand

Cash at bank and on hand include cash on hand, demand deposits and other term highly liquid investments regardless of maturity. Bank overdrafts are shown within borrowings in current liabilities on the balance sheet.

All movements in the level of the provision required are recognised in the profit and loss.
